## ***SBS MATRICS DO US PROUD***

*Despite an extremely challenging academic and emotional year, the Matric Class of 2020 excelled and did themselves and the St Benedict Community proud by achieving a 100% pass rate.*

*Our Dux student and Deputy Head Girl, Deosha Moodley, achieved a perfect full house of A's (over 80%). Furthermore, the Class achieved a remarkable 11% A aggregates and almost 20% of all individual subject results, were an A symbol.*

*The school is very grateful and blessed to have achieved such wonderful results, however, we trust that we have gone further than just educating our Matric Class for Matric results and have taught them the softer skills of perseverance, working in collaboration with others, problem-solving, tolerance of different views, critical engagement with ideas, responsibility and moral sensitivity. These, together with the solid academic foundation received, will make this group of SBS students valuable South African citizens who can cope with life after Matric.*

*The school wishes all Matric Students a happy and successful future. May you taste wisdom and leave a positive mark on all those who you encounter on your journey called life.*
